Digital Resources

English 3D Digital Resources are designed to ensure accessibility and achievement for all.

**Issues Texts** include a range of informational and literary texts that students use as a platform for learning critical academic vocabulary, practicing academic speaking, and producing authentic writing products.

**The Language & Writing Portfolio** is an interactive worktext with scaffolds for student learning, instruction, and writing practice.

**The English 3D Teaching Guide** is a comprehensive instructional guide comprised of routines, instruction, assessment, and differentiation.

**Instructional Routines** include recursive, research-informed strategies with clear steps that teachers use to maximize student engagement and learning in English 3D.

**Build a strong foundation in English language instruction with resources for Foundational Skills.**

**Academic Writing & Research** includes differentiation resources and mini-lessons to support academic writing.

**Remote Teaching** provides tools and resources to help educators with virtual teaching and learning.

**Additional Resources** highlighted on following pages
Discover Newcomer Resources

The Newcomer Book and Teaching Guide provide essential vocabulary and language instruction for students who are at the early emerging or beginning levels of English language proficiency.

You can find over 200 projectable and printable resources including assessments, rubrics, interview assignments, additional texts, resources for differentiation, grammar and conventions practice, and family letters throughout the resources on Ed.

Digital Resources continued

Assessment includes program tests, inventories, scoring charts, informal assessments, rubrics, and observation tools.

Classroom Resources
• Tools & Procedures to establish expectations and effectively manage the English 3D classroom
• Language for Collaboration to post in the classroom and reference during partner and group interactions
• Independent Reading tools to manage a classroom library, match students to books, and monitor students' reading

Family Resources
Support learning at home with tools for parents and caregivers.

Assigning Resources

Also under the Discover Tab, you can add resources to a lesson plan and easily assign a resource to an entire class, a group of students, or individual students.

After selecting the appropriate Program on the Discover tab under the Select a Program drop-down menu, choose an Issue, and then select View Resources.

Filter search results to find resources and content quickly.

Assign to a particular group

Open to view the resource.

Assign the resource. Assignments appear in the Student’s Dashboard. (This can be done once a class is established and students are added to the class.)

Add to Plan adds the resource to a lesson plan you have created.
Connected Solutions

When enabled, you can find Writable listed as one of the Connected Solutions. Writable is a state-of-the-art platform allowing students to plan, draft, revise, and edit writing assignments.

The robust tools help prepare students for the writing expectations in their core classes, college, and beyond.

The side-by-side reading and writing provides access to issue texts for students to reference when providing evidence and citing sources in their writing.

Supports designed specifically for multilingual learners effectively scaffold academic writing tasks. Assign writing frames at different levels of support to provide a gradual release as students move toward writing independence.

Monitor student progress with HMH Growth Measure. This adaptive assessment provides timely insights into student proficiency and connects these insights with HMH program data.

Benchmark assessment data from HMH Growth Measure combines with in-program assessment data to form a more complete picture of a student’s progress.
Assessment Types

*English 3D* includes a variety of assessments, including technology-enhanced curriculum-based assessments and tools for informal assessments.

**Informal Assessments** are used to survey or observe students and determine their current learning status, relative difficulties, and misunderstandings.

**Curriculum-Embedded Assessments**, called Issue Tests, determine whether or not students met the goals of the issue and identify the areas in which students need additional support.

**Scoring & Grading Resources** include rubrics to assess students’ formal writing assignments and speeches, as well as a tool to assign grades.
Assignments & Groups

The **My Class** tab allows teachers to monitor student progress on assignments and access reporting on digital assessments to guide instruction and grouping.

**Assignments**
View student progress on assignments including those assignments with open-response items that are ready to be graded.

**Create Groups**
Teachers can choose to manually group students or let *Ed* suggest groups based on student scores and data.
Data & Reports

The Data & Reports section is where teachers can get valuable insight about the performance of their students to inform their next instructional steps.

Easy-to-interpret reports provide a forecast of each student’s performance on high-stakes assessments.

Assessment and Standards Reports provide a clear picture of both individual progress and class growth.
Student Access

From the Student Dashboard under the Assignments and Scores tab, students can access the status and due dates of their current assignments, as well as their scores on those they have completed.
